

## AquaSeat

5 YEAR  
WARRANTY

With an aesthetically attractive design, the AquaSeat is versatile, with endless opportunity for use. Designed with a contemporary shape, the body contour makes it a comfortable and practical seating option, whilst also watering your garden beds and plants nearby. Available in stone print, translucent or coloured material, it can be your garden's showpiece, or blend into its surroundings.

The AquaSeat will hold 275 litres of fresh water, but the true beauty of this unique piece of garden irrigation, is its additional uses:

### **Secondary Storm Water Retention**

- Connect to a larger rainwater harvesting tank for a flow-on effect
- Drip feed plants and trees
- Fertiliser can be added to water

### **Bollard Applications**

- The translucent colour option allows for night-time usage, when a lighting unit\* is fitted
- Ability to be secured to the ground or concrete, providing a permanent bollard option
- When removed, the steel caps will cover Inground Mount

### **Event Applications**

- Barricading off areas
- Acts as crowd controllers to corral patrons at events, concert or expos

### **Exercise & Playground Equipment**

- Step ups for park workouts, or your own backyard
- Caterpillar play equipment for Early Child Centres and Schools

- The ergonomics of this urban furniture design provides integral strength with a self draining top face, so it won't hold water, avoiding puddles.
- Can act as a tree-feeder reservoir for new plants and trees, promoting tree survival.
- 100% recyclable.
- At only 25 kgs, it's light weight thus allowing easy management and portability, whilst being able to withstand up to 200 kgs.
- Whilst drip feeding your garden beds, the AquaSeat can also supply liquid fertilizer.
- Stackable for easy storage, and can be palletised in sets of 6.

### **SPECIFICATIONS**

**Diameter:** 1120 mm    **Height:** 420 mm    **Water Capacity:** 275 Litres    **Weight:** 25 kgs (empty)
