AQUASEAT

Durable and built to last, using UV-stabilised food grade polyethylene. BPA free.

Can be connected to a water tank for captured rainwater usage, or even interconnected for a flow-on effect.

Lightweight so they can easily be moved around, and stackable for space-saving storage.

Ergonomically designed with a kiss-off structure for a comfortable outdoor seating option.

5 YEAR WARRANTY

Australian's love their backyards, and keeping it vibrant, hydrated and entertaining has become a priority. There is now a garden watering system that can not only keep your garden irrigated, but is so innovative and unique, it can also serve as outdoor seating, play equipment for children, or even an outdoor exercise step. Introducing NextGenRoto's AquaSeat.

Constructed from one piece UV-stabilised food grade polyethylene, it is not only durable to endure Australia's harsh weather conditions, but 100% recyclable, making it an environmentally friendly choice.

The AquaSeat is sturdy, with a top face that is self-draining, and can withstand up to 200 kgs at any one time. It has a contemporary design, and specifically engineered for body-contouring, with a kiss-off structure.

3/4" or equivalent 20 mm brass inserts are moulded into the recesses underneath, to fit drip taps. An anti-tamper filler cap and drainage bungs have been included to inhibit tampering. It also includes an eye bolt for tethering around plantation such as trees, using steel cable and a padlock.

DIMENSIONS

Diameter: 1120 mm

Height: 420 mm

Water Capacity: 275 Litres

Weight: 25 kgs (empty)

300 kgs (with water)

It can easily be placed anywhere in the garden to target dry areas that need watering, by drip feeding water via a hose or through a water tank. For a touch of backyard elegance, add an LED light underneath the translucent AquaSeat option, and watch the seat magically transform into a striking night-time attraction.

Available in a range of solid and translucent colours, or unique stone effects to blend into its surroundings. To view our full range of colours, visit nextgenroto.com.au/colours.
